Nineteenth Sunday in Ordinary Time

God is with us. The readings today speak of the mysterious presence of God in our midst.

.....

■ **FIRST READING:** Elijah the prophet goes to Mount Horeb, the holy mountain where Moses had received the law of God amid great signs and wonders—smoke and cloud, earthquake and trumpet blast. As he waits for the manifestation of the Lord’s presence, he experiences many of those same phenomena—wind, earthquake, fire—but the Lord is not in any of these. Instead, the Lord’s presence is felt in the “tiny whispering sound” that comes after all the storms are silenced (1 Kings 19:12). God cannot be seen or touched; but God can be felt.

■ **RESPONSORIAL PSALM 85** is one of our Advent season psalms, a song of the Lord who comes, bringing “kindness and truth... justice and peace” (85:11).

■ **SECOND READING:** St. Paul, in embracing faith in Jesus Christ, did not reject his Jewish his Jewish roots. Quite the contrary is true. In this passage he speaks of the irrevocable gifts God has given to the chosen people, and he expresses his love for them with the greatest hyperbole he could imagine: “I could wish that I myself were accursed and cut off from Christ for the sake of my own people” (Romans 9:3).

■ **THE GOSPEL:** At first glance, the Gospel account of Jesus walking on the water would not seem to have much in common with Elijah’s encounter with God on the mountain; but there are some striking parallels here. Like Elijah, Jesus goes up the mountain alone, first sending the disciples ahead of him, then dismissing the crowds. The disciples are surrounded by signs of God’s power—wind and waves—but they experience God’s presence, as Elijah did, in stillness and calm, in the reassuring words of Jesus, “do not be afraid” (Matthew 14:27). Only Matthew tells how Peter walked toward the Lord on the water, only to lose courage and sink. The disciples believe that Jesus is the Son of God (see Matthew 14:33), but they are still full of doubt and fear.

Excellence in Academic Achievement

A Catholic education is a challenging education. High standards, strong motivation, effective discipline and an atmosphere of caring combine to foster excellence, and, a high quality of student performance is supported by the evidence.

- Catholic School students score significantly above the national averages on standardized testing.
- Research shows that because of a greater emphasis on homework and study, Catholic School students develop more effective writing skills.
- Catholic High School students attend post-secondary education at a rate in excess of 80% and are more likely to complete their program of studies.
- Catholic Schools have an excellent success rate in educating minority students.

While providing a stimulating and demanding education, Catholic Schools give students a high level of individualized attention and personal sharing. This commitment is reinforced by participation in programs for advanced students and also for those experiencing difficulties in reading, writing, and math.

Family and Community

A Catholic School recognizes the parents and family as primary educators and joins with them to form a living community of shared visions.

- Catholic Schools help students understand that each person is unique and valuable.
- Catholic Schools join with the family to help students understand their special place in the family, the Church, and society.
- Catholic Schools encourage family input and involvement in the ongoing education of their children. Research shows that such a partnership results in higher attendance rates and lower dropout rates.
- Catholic Schools strive to create a special bond among the students, the home, the school, and the church, so that all share the strong sense of community.

Every child shares in an educational environment filled with love and concern -- a community joining together to help create a better world.

Lord, what about you and me?
I don't want to forget you

Got Sacraments? What is the Rite of Christian Initiation of Adults?

If you or anyone you know needs to receive the sacraments of Baptism, First Eucharist, or Confirmation, the RCIA can help with the completion of these sacraments of initiation. For more information about this process please call Bob Miller in the parish center at 973.338.9190 x131.

Dear Parishioners,

The famous psychologist, Carl Jung wrote, "We cannot live the afternoon of life according to life's morning." It has been my privilege to serve you in this parish for the past nine years. However, after much prayer and reflection the Holy Spirit has prompted me to seek retirement. My religious congregation has supported my decision. Change is never easy. It is difficult to leave you and yet I'm excited about the new possibilities of growth in my faith life as well as my personal life. I'm looking forward to this new venture.

When I spoke with Fr. Miller in March and informed him of my decision to retire, I asked him not to say anything to you because I didn't want any special acknowledgement or reception. I had a glorious 50th Jubilee in October and that will always live in my heart. I ask only for your prayers that I may be open to the mystery unfolding in me.

I thank Fr. Miller, the entire Parish Staff and you the parishioners for all your kindnesses extended to me. My prayer for you is that you be open to the Holy Spirit working in you. Don't be surprised if you see me at the Parish Center as I will continue to be part of the Cornerstone Team planning for the Cornerstone Retreat in March of 2012.

I continue to say as stated in the theme of my Jubilee, For all that has been, Thanks. For all that will be, Yes.

God bless you.

10 Reasons to Donate Blood

- Blood transfusions save lives.
- There's no substitute for human blood.
- Every three seconds someone needs a blood transfusion.
- About 60 percent of the population is eligible to donate blood, yet less than five percent do.
- A pint of blood, separated into components, can help up to three people.
- You'll make your community a safer place.
- Fulfills your desire to "give back" to the community.
- You'll receive a mini physical (blood pressure, temperature, iron level).
- You'll learn your blood type.
- It's safe, simple, and it saves lives.
